

Prompt Transformation Example (Medicare Supplemental Plans) Three words: Specific • Steps •

Refine 1. BASIC THOUGHT (Not Specific) **Thought:**

"It's time to pick my Medicare supplemental plan." **If they typed this as a prompt:**

They would get a broad explanation—not tailored to their situation. 2. SPECIFIC **Specific Prompt:**

"I am 70, on Medicare Part A and B, and it's time to choose a Medicare Supplemental (Medigap) plan. I want predictable costs and the ability to see any doctor who accepts Medicare. Can you explain the main differences between Plans G, N, and High-Deductible G in simple terms?" 3. SPECIFIC + STEPS

Specific + Steps Prompt:

"I am 70, on Medicare Part A and B, and need to choose a Medicare Supplemental (Medigap) plan. I want predictable costs and freedom to see any doctor who accepts Medicare. Can you give me a step-by-step guide to choosing a plan, including: 1) what to compare, 2) how Plan G, Plan N, and High-Deductible G differ, 3) how to estimate yearly costs?" 4. REFINED (Based on First Answer)

Refined Prompt:

"Thanks — that helps. Can you simplify the comparison even more and focus only on the differences that matter most for someone who visits the doctor a few times a year but wants to avoid surprise bills? Also include an example yearly cost comparison using typical premiums." Summary **Specific** → Add details and your situation.

Steps → Ask for step-by-step help.

Refine → Adjust the answer until it's exactly what you need.
